2. Explanation of codes

   1) Codes on the "Part No." column

   a) .......................... means the part is changed from the previous parts book.

   b) #01 .......................... refer to the "Note" explanation at bottom of page.

   c) 01 .......................... box on the "Note" of previous pages should be referred to.

2) Codes on the "E.C. (Engineering change)" column

   a) A.10/83 .......................... Added from October, 1983

   b) D.10/83 .......................... Discontinued from October, 1983
