PARTS

INDEX

MACHINES
Nos. 511w1 and 511w2

THE SINGER MANUFACTURING COMPANY
Instructions for Ordering

In ordering from this list, use ONLY the PART number in the FIRST column.

The number stamped on a Sewing Machine Part is the number of the Single Part only, except when the part includes Set Screws, Clamping Screws, Studs and Rollers Spun on, Small Wires riveted, or Parts soldered together, etc., which it is necessary to furnish in combination.

Every combination of parts sent out has its specific number which, although not stamped on Parts (except in above cases) must be used when ordering the combination.

Each number always indicates the SAME PART in whatever list it appears, or for whatever Machine.

The letters after some of the numbers indicate the style of finish only, as follows:

A. Hardened, Polished and Plated.
B. Polished and Plated.
C. Hardened only.
D. Polished only.
E. Soft, not polished.
F. Hardened and Polished.
H. Blued.

These letters MUST BE USED when they appear in the list and AFTER the number, as in the list.

In this series
200001 to 201500 are Screw Numbers.
201501 to 201800 are Nut Numbers.
201801 to 202000 are Roller Numbers.
202001 and upward are numbers of Machine Parts.

The figures in the second column refer only to the plate in which the illustration of the part is shown and are NOT TO BE USED in ordering.

Two or more numbers over a cut indicate that the difference between such parts is not visible in an illustration.

Parts marked with an asterisk (*) are furnished only when repairs are made at the factory.

LIST OF PARTS COMPLETE
FOR

MACHINE No. 511w1

BUTTON TAPEING
Threads the Tape into the Button and Automatically Cuts it to Length

For 20 and 22 ligne buttons
